

Windmill Hill Activity Sheet

HISTORY

1

The windmill was built nearly two hundred years ago.

Complete the timeline by adding the years when these events happened:

- the sweeps (sails) were taken down
- the mill was built
- the year the restoration work started
- the year the mill was bought by new owners, who set up the Windmill Hill Windmill Trust
- the last year the mill was known to be working

(Hint: Look at the History and Restoration information panels in the roundhouse.)

2 Information about the past can come from lots of different sources. As well as reading about the history of the mill, you will also be able to find out information through photos, diagrams and artefacts (objects). Circle the source that tells you:

what the mill looked like in 1961	photo	diagram	artefact
how the grain was fed into the millstones	photo	diagram	artefact
what sort of clothes people wore in the 1930s	photo	diagram	artefact
how the sweep governor worked	photo	diagram	artefact
what the sack hoist looked like	photo	diagram	artefact

(Hint: Look at the information panels and displays in the roundhouse.)
